**UCEAP Transcript Title**

RESEARCH

**UCEAP Quarter Units**

16.00

**UCEAP Semester Units**

10.70

## Course Description

The course consists of a research project in physics that involves the compilation of research findings, as well as processing information and data. Some projects involve independent practical research and/or numerical or theoretical calculations in a chosen topic. Individual supervision is provided by faculty member based upon an agreement with the student. The type of supervision and frequency of supervision depends on the project and its stage, and the supervisor supports the project and provides feedback during the final stage. Graded on a P/NP basis only.
