UCEAP Semester Units

3.00

Course Description

Through classroom study and field trips, this course embarks on a journey of Jerusalem through time and space, over the course of three thousand years, from a regional center to a national capital to the spiritual center for the world's three great western monotheistic religions. It builds an understanding and appreciation of its present and future, how the city developed, and how the city seems to touch everyone in the world today.
