UCEAP Course Suffix
UCEAP Official Title GARDENS OF CULTURE: THE ANTHROPOLOGY OF FOOD SYSTEMS
UCEAP Transcript Title ANTH: FOOD SYSTEMS
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course examines anthropological approaches to foodways and agricultural sustainability. It considers how small-scale producers and their communities fulfill their basic needs, and how they relate to the living world, including the plants and animals that are the sources of valued foods. It also undertakes the critical analysis of food movements, food systems and the socio-economic contexts of food provisioning and food production, particularly through ethnography.
