UCEAP Course Suffix
UCEAP Official Title THE NEW CHALLENGES OF AI
UCEAP Transcript Title NEW CHALLENGES/AI
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course examines the ambivalent role of digital technologies in our societies and questions our future by questioning their relevance. It first considers where we come from and how the pre-web world prepared us for this new reality, notably through science fiction. It then invites us to understand what is happening in our daily lives by deciphering the announced technological advances and their effects on reality. Finally, the course imagines a horizon that seems most desirable for all.
