UCEAP Transcript Title EDU FOR DEVELOPMENT
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course introduces international education and development through three lenses. The course first examines why education is seen as important for development, drawing upon economic, rights-based, and socio-cultural perspectives. It then examines the way education is measured and targets are set for development. The course provides grounding in education and international development, with a particular focus on the challenges facing resource-constrained and rapidly expanding educational systems.
