Course Description

The Swiss author Johanna Spyri created one of the world's most famous children's book characters with Heidi's Years of Apprenticeship and Traveling (1880) and Heidi Can Use What She Has Learned (1881). To date, the Heidi novels have been translated into around 50 languages and repeated, among other things. Adapted as a film, (animated) series, comic, musical and radio play. Most recently, in May 2023, the Johanna Spyri Archive and the Heidi Archive were added to the UNESCO World Documentary Heritage, which lists cultural-historical artifacts of global importance. Using the example of auditory adaptations of the first Heidi volume, the seminar provides an insight into the analysis of children's audio media. Audio books and radio plays are available that deal with the story of the cheerful orphan girl and span from the 1950s to the present. The audio media are discussed from aesthetic and narrative points of view as well as with regard to content transformations. The starting point of the seminar is the reading of Spyr'is Heidi's years of teaching and traveling.
