4.50

UCEAP Semester Units

3.00

Course Description

When external stressors happen to individuals, their coping occurs with their family involved as a unit. This course covers diverse types of stressors, including immigration and health condition, and investigates how families cope with the stressors. Contemporarily, whereas diverse forms of families exist, the cultural expectations towards families do not seem to have changed accordingly. Thus, the discussions in this course will cover the context of diversity and the diversity of contexts.
