COURSE DETAIL

HUMAN SEX REPRODUCTION AND HEALTH
Country China
Host Institution Peking University, Beijing
Program(s) Peking University
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Biological Sciences
UCEAP Course Number 126
UCEAP Course Suffix
UCEAP Official Title HUMAN SEX REPRODUCTION AND HEALTH
UCEAP Transcript Title HUMAN REPRODUCTION
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description
Starting from biological and physiological perspectives, the lectures are based on the biological significance of the sexual differentiation and the mode of human reproduction. The instructors first briefly introduce the characteristics and evolution of human sexuality, and then go into details about the basic structure and function of the reproductive organs, the biological and physiological basis of the gonadal function and its adjustment and control, human fertilization, embryo genesis, fertility, sexual development and differentiation, and the knowledge and problems about biology and physiology of adolescence. Other fundamentals, such as the human genetic diseases, sexual health and sexually transmitted diseases, e.g. the prevention and control of AIDS, are also covered. Assessment: Report (10%), final (90%).
