COURSE DETAIL

BIOGEOGRAPHY
Country Ireland
Host Institution University of Galway
Program(s) University of Galway
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Geography Biological Sciences
UCEAP Course Number 140
UCEAP Course Suffix
UCEAP Official Title BIOGEOGRAPHY
UCEAP Transcript Title BIOGEOGRAPHY
UCEAP Quarter Units 4.00
UCEAP Semester Units 2.70

Course Description

This course provides an introduction to the study of biogeography. Bridging the fields of ecology and geography, biogeography is the study of the spatial patterns of biological diversity and its causes. Students identify how historical, physical, and biological factors affect present and past distributions of individuals, species, populations, communities, and ecosystems. The actions of humans are a critical force impacting other species, and the human influence on past, present and future species distributions is a central topic in this module.

Language(s) of Instruction
English
