UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course provides a first introduction to the field of political economy and the geopolitics of natural resources. It is based on rich literature from political philosophy, economics, comparative politics, and international relations. The period of analysis focuses on the post-war era and does not concentrate on any particular region. However, the specific characteristics of different regions or countries are discussed, including Latin America, Russia, Africa, and the Middle East and North Africa region.
