COURSE DETAIL

BECOMING HUMAN: THE SCIENCE OF US
Country Ireland
Host Institution Trinity College Dublin
Program(s) Trinity College Dublin
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Anthropology
UCEAP Course Number 105
UCEAP Course Suffix
UCEAP Official Title BECOMING HUMAN: THE SCIENCE OF US
UCEAP Transcript Title BECOMING HUMAN
UCEAP Quarter Units 4.00
UCEAP Semester Units 2.70

Course Description

Students learn how the scientific analysis of fossil bones and stone tools, combined with the study of modern and ancient genetic codes, can be used to unlock the hidden history of our species. In this course, students discover the relative strengths and weaknesses of different kinds of data, and the sorts of questions that a scientific approach can (and cannot) answer. Students learn to be able to explain how an understanding of our past can provide unique insights into topical issues such as diet, human health and disease, migration, "race," language and national identity.

Language(s) of Instruction
English
