8.00

UCEAP Semester Units

5.30

Course Description

This course examines fundamental and advanced topics in social psychology. Students look at the topics of stereotyping, prejudice, and discrimination and how these manifest in the world today. They also cover how these can be challenged and reduced. After covering these topics, students examine in depth a range of specialist areas of social psychological research such as dehumanization, objectification, and the ways in which people think about animals.
