Course Description

There are so many topics to explore: generic status; thematic inclusiveness; the incorporation of contemporary epistemology—and the ongoing ethical and environmental concerns that Melville raises. Students discuss the content of the "novel" and its shifting tones from the comic to the tragic, but there’s no end to the sense of things that the book raises. Students reflect on topics such as political dictatorship, obsession, absolutism, oil, modernity, etymology, capitalism, Christianity, slavery, and the roots of belief systems.
