UCEAP Subject Area(s) Urban Studies
UCEAP Course Number 136
UCEAP Course Suffix
UCEAP Official Title URBAN FORM AND FORMATION
UCEAP Transcript Title URBAN FORM &FORMATN
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course explores the relationships between urban form and formation: how insights from urban morphology and morphogenetic processes that created existing urban form can better inform the creation of future urban form through planning, design, and more informal urbanism. This involves study of different urban form components and patterns at different scales – buildings, spaces, streets, and districts – and how these are created in relation to each other to generate overall urban form.

Language(s) of Instruction
English

Host Institution Course Number
BPLN0085

Host Institution Course Title
URBAN FORM AND FORMATION
