# **COURSE DETAIL**

### **DEVELOPMENT OF AI-BASED EDUCATION PROGRAM**

## **Country**

Korea, South

### **Host Institution**

Yonsei University

## Program(s)

Yonsei University

### **UCEAP Course Level**

**Lower Division** 

### **UCEAP Subject Area(s)**

Education

#### **UCEAP Course Number**

60

### **UCEAP Course Suffix**

#### **UCEAP Official Title**

DEVELOPMENT OF AI-BASED EDUCATION PROGRAM

## **UCEAP Transcript Title**

AI-BASED ED PROGRAM

## **UCEAP Quarter Units**

4.50

### **UCEAP Semester Units**

3.00

### **Course Description**

Educational big data analysis consolidates information to provide teachers and administrators with the big picture of trends and patterns that can be used to evaluate and streamline processes, create efficiencies, and improve the overall students' experience. In this course, students learn:

- a) learning theories and instructional design models for developing educational program;
- b) the characteristics of educational data;
- c) the basic programming language to operate big data analysis;
- d) some machine learning algorithms that allow computers to learn data and to predict unknown results; and,
- e) the skills to embed the machine learning model into the real online educational program.

### Language(s) of Instruction

English
