UCEAP Subject Area(s) Political Science
UCEAP Course Number 132
UCEAP Course Suffix
UCEAP Official Title THE FOUNDATION OF COGNITIVE SCIENCE
UCEAP Transcript Title COGNITIVE SCIENCE
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

Apple, background, commutativity—underlying each of these words is a concept, which a language learner must identify and learn to decode and encode for parsing and constructing sentences. How do young children acquire words and know how to use their grammar correctly? Is learning *apple* just as easy as learning *background?* This class surveys classic and current views on cognitive underpinnings for language acquisition and how acquiring language impacts cognition.

Language(s) of Instruction
English
