N

UCEAP Official Title
DIGITAL GEOGRAPHIES

UCEAP Transcript Title
DIGITAL GEOGRAPHIES

UCEAP Quarter Units
6.00

UCEAP Semester Units

4.00

Course Description

This course begins with exploring how digital technologies have proliferated every aspect of our daily lives, around work, travel, leisure, consumption, production, and reproduction, in ways that are simultaneously virtual and material. This focuses on how digital technologies, infrastructures, devices, logics, and methods are blurring the divides across analog and digital spaces. It then looks at how digital technologies can simultaneously break down and reinforce inequalities along class, race, gender, sexuality through new "digital divides." Finally, it examines the implications this has for producing new forms of digital citizenships and claims to social and spatial justice.
