UCEAP Course Suffix
UCEAP Official Title ENVIRONMENTAL RISK GOVERNANCE AND SOCIETY
UCEAP Transcript Title ENVRN RISK&SOCIETY
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

The course examines contemporary social theoretical explanations of the salience of risk within so-called "late modern" society. The course then explores the factors that shape the politics, processes, and outcomes of risk governance, as well as the factors that shape public perceptions of environmental risk and the associated problems posed for policy-makers, businesses, and other stakeholders in communicating risk issues. The course finishes with reflections on the future management of environmental risk issues.
