Course Description

Group social work is an important method among the three major practice methods of social work. This course mainly introduces the basic principles of group social work, the theoretical basis of group work, group types, elements of group systems, group dynamics, group social work process and the evaluation of group social work. The purpose of setting up this course is to enable students to systematically understand the meaning, origin and development of group social work as well as the theoretical basis of group social work practice, to have an in-depth understanding of the structure, process and development of the group, and to master the principles and characteristics of each different implementation stage. On the basis of comprehensively using various methods and techniques of group social work to organize the implementation of group social work. The course will explain practical theories while supplementing them with relevant cases. While paying attention to the analysis of practical theories, it will also focus on teaching group work skills and methods to prepare students for group social work.
