SYSTEMS THINKING FOR SUSTAINABILITY

### **UCEAP Transcript Title**

SYS THINK: SUSTAIN

### **UCEAP Quarter Units**

6.00

#### **UCEAP Semester Units**

4.00

### **Course Description**

This course examines the way systems thinking is used in sustainability studies, including in local, regional and international contexts. Students are introduced to some of the strengths, limitations and major challenges inherent in this approach to helping us address complex interdisciplinary problems.
