UCEAP Course Suffix
UCEAP Official Title THE PSYCHOPATHOLOGY OF EVERYDAY LIFE
UCEAP Transcript Title PSYCHOPATHOLOGY
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
This course covers phenomena such as hallucinations and delusions, anxiety, somatization, depression, dissociation, and changes in memory and cognition, and places them in the context of everyday experiences. It discusses the various factors, processes and mechanisms thought to lead some people who experience such phenomena to develop full-blown disorders. A theoretical basis for this continuum model is provided and students are encouraged to consider mental health issues from this humanistic perspective in comparison to the traditional categorical model.

Language(s) of Instruction
