Course Description

Teaching objectives of this course:

To guide students to appreciate Chinese bronzes, and understand the thoughts, technology, aesthetic intention, cultural beliefs contained in the bronzes, and understand the cultural status of Chinese bronzes in the material history of the world.

Expected learning gains of this course:

(1) By training students' observation and cognitive ability of bronze ware, students can basically understand the emergence, use and development of bronze ware and their historical and cultural background, and master the knowledge system of bronze ware.

(2) Students have a general understanding of the type characteristics, technical connotation and artistic characteristics of Chinese bronzes, have some thoughts about the culture carried by ancient Chinese bronzes, some experience and inheritance of traditional culture, and some understanding of the expression of beauty.

(3) Taking ancient bronze ware as an example, students are guided to deepen their understanding of the status of Chinese material culture and civilization in the history of world civilization.
