Course Description
This course introduces the sociological study of religion in traditional Chinese society and the late modern world. It presents differing perspectives to increase understanding of the significant role of Chinese religion in both the traditional and contemporary worlds and presents developing scholarly resources in support of intellectual dialogue and mutual understanding between China and the West. the course discusses the similarities and contrasts in the dynamics of modernization as experienced in China and in the West, especially those spiritual convictions that lie at the heart of the Chinese heritage of popular belief and practice.
