Course Description

This course is intended for students who have completed at least four semesters of college-level Spanish and wish to study the field of health sciences in Spanish in depth. This is an advanced course for students who wish to develop the necessary skills and knowledge to progress in the specific area of Spanish health vocabulary, or to work in the healthcare sector in Spanish. It includes the syntactical and lexical structures and communicative content, and techniques that cover all areas related to health: the definition of health, open institutions, closed institutions, professional outcomes, internal medicine, surgery, medical specialties, first aid, etc.
