**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

This course surveys research methods for science and technology studies and across the social sciences that contribute to the generation of new data. Students study a diverse range of methods and learn to understand the strengths and weaknesses of particular methods for investigating particular questions. Students are introduced to the theory and practice of qualitative and quantitative methods. Topics include research ethics, research design, face-to-face interviews and focus groups, surveys, content and discourse analysis, and ethnography.

## Language(s) of Instruction

English

## Host Institution Course Number

HPSC0140

## Host Institution Course Title

RESEARCH METHODS IN SCIENCE AND TECHNOLOGY STUDIES

## Host Institution Campus

Bloomsbury

## Host Institution Faculty

Faculty of Mathematical and Physical Sciences

## Host Institution Degree

## Host Institution Department

Science and Technology Studies
