UCEAP Semester Units

2.70

Course Description

This course is offered exclusively to visiting and exchange students and offers students with little or no background in Scottish studies an introduction to the development of Scotland through the ages from an interdisciplinary perspective. With contributions from academic staff in archaeology, Celtic and Gaelic, history, and Scottish literature, this course addresses how Scotland has been affected by change over time, and how – through the years – Scotland has sought expression in language and literature and the physical environment.
