UCEAP Transcript Title EFFECTIVE REASONING
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

What is good reasoning? The course answers this question by studying the mechanics of reasoning. Students learn what an argument is, what the difference between validity and soundness is, and what it means to say that an argument is valid in virtue of its form. Students are introduced to various strategies and pitfalls in reasoning. In addition, to hone analytical skills, students are given arguments—drawn from philosophy and other areas—to unpack and evaluate.
