COURSE DETAIL

INTERNET AND NETWORK SECURITY

Country
Germany

Host Institution
Technical University Berlin

Program(s)
Technical University Berlin

UCEAP Course Level
Upper Division

UCEAP Subject Area(s)
Computer Science

UCEAP Course Number
100

UCEAP Course Suffix

UCEAP Official Title
INTERNET AND NETWORK SECURITY

UCEAP Transcript Title
INTERNET SECURITY

UCEAP Quarter Units
4.50

UCEAP Semester Units
3.00

Course Description

In this course we will examine how existing network layers are protected, how to verify the security of a protocol, and how to improve the dependability. We will specifically learn about the common vulnerabilities in the current Internet, such as botnets, viruses, denial-of-service attacks, etc., and design principles to overcome these issues in the future. We will also learn about the security benefits and challenges of network virtualization technologies, about air-gapping, as well as automated network testing methods and fuzzing.

Language(s) of Instruction
English
