WAR, MIGRATION, AND HEALTH

UCEAP Transcript Title

WAR/MIGRATN &HEALTH

UCEAP Quarter Units

8.00

UCEAP Semester Units

5.30

Course Description

This course provides a critical overview of over-arching themes and agendas in war, migration, and health. This includes building understanding of how war and migration affect population and critical assessment of how health systems in Europe respond to population movements. In doing so the course highlights issues of how health is conceptualized in theory and practice, the power relations and inequalities involved within and between key health populations, actors, and institutions, and the key health challenges before and after war.
