Course Description

Combining images, words/texts, audio, infographics, and art works, this course instructs on how to create short films/documentaries, photo-stories/essays, sound slides, and multimedia research/contents. An overview of the theories, principles and practices related to visual media methods is provided. Furthermore, the course provides exposure to basic scriptwriting, interviewing, photo and video editing, subtitling, photo/video journaling, typography, page and poster designing. Data citation and ethics in media production are also addressed.
