UCEAP Course Suffix
UCEAP Official Title MACROECONOMICS 1
UCEAP Transcript Title MACROECONOMICS 1
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course is an introduction to macroeconomic analysis. Students study how countries' economic performance is determined in the short and the long run. Students learn about why we observe economic growth and development for some countries but not for others, and why economic activity fluctuates over time (booms and recessions). The course covers the role of policy and how it affects the economy. Emphasis is given to concepts and tools used by macroeconomists in the analysis of macroeconomic phenomena.
