Chinese Kungfu, (also known as Wushu or martial arts) is one of the most well-known physical arts of traditional Chinese culture which is also probably one of the earliest and longest-lasting sports using both brawn and brain. Based upon classical Chinese philosophy, Kungfu has developed as a unique combination of exercise, practical self-defense, self-discipline and art over its long history. It could be divided into two types: "external Kungfu" and "internal Kungfu". In external Kungfu, you exercise your tendons, bones, and skin. In internal kungfu, you train your spirit, Qi, and mind.
