**Course Description**

This course offers an introduction to various international business disciplines including international management, international finance, international marketing, international accounting, international business operations, and international business law. It examines the vision and tools required to effectively manage the challenges that globalization, changing world markets, and cultural differences demand. This course discusses industries, competitors, regions, and markets from the perspective of practicing managers and the reasons behind global differences. Finally, it offers an overview of the different areas of international business and their contributions to the foundation of global business and management.
