NEW ZEALAND: HALF A BILLION YEARS ON THE EDGE

UCEAP Transcript Title

NZ: HALF BILL YEARS

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

This course follows the geologic and biologic development of New Zealand for the last 500 million years. It spans the humble beginnings on the edge of the ancient supercontinent Gondwana to the present day geologically dynamic land mass beset by volcanic eruptions, earthquakes, and massive erosion as a consequence of being located on the edge of the Earth's largest tectonic plate.
