# **COURSE DETAIL**

## **NEW ZEALAND: HALF A BILLION YEARS ON THE EDGE**

## **Country**

New Zealand

#### **Host Institution**

University of Auckland

## Program(s)

University of Auckland

#### **UCEAP Course Level**

**Upper Division** 

## **UCEAP Subject Area(s)**

Earth & Space Sciences

### **UCEAP Course Number**

125

#### **UCEAP Course Suffix**

#### **UCEAP Official Title**

NEW ZEALAND: HALF A BILLION YEARS ON THE EDGE

## **UCEAP Transcript Title**

NZ: HALF BILL YEARS

## **UCEAP Quarter Units**

6.00

#### **UCEAP Semester Units**

4.00

## **Course Description**

This course follows the geologic and biologic development of New Zealand for the last 500 million years. It spans the humble beginnings on the edge of the ancient supercontinent Gondwana to the present day geologically dynamic land mass beset by volcanic eruptions, earthquakes, and massive erosion as a consequence of being located on the edge of the Earth's largest tectonic plate.

## Language(s) of Instruction

English

#### **Host Institution Course Number**

EARTHSCI 205

#### **Host Institution Course Title**

NEW ZEALAND: HALF A BILLION YEARS ON THE EDGE

#### **Host Institution Campus**

Auckland Univ.

# **Host Institution Faculty**

**Host Institution Degree** 

# **Host Institution Department**
