## Course Description

The course covers the basics of corporate finance from a big picture and value enhancing perspective. The course has three main objectives: (1) Develop an understanding of the tools that are used to value investment projects and companies (valuation); (2) Understand the basic issues involved in how firms should raise funds for their investments (financing); (3) Evaluate how investment and financing decisions are related. Emphasis is placed on applying the theoretical framework of corporate finance to real world problems. Prerequisites: Understanding of basic economic and statistical concepts, familiarity with time value of money, financial statements analysis, discounted cash flow analysis, risk-return trade-off, and diversification.
