Course Description

The course aims at introducing the culture system of traditional Chinese medicine (TCM), including the basic theory (yin-yang and five elements, viscera and their manifestations), basic skills (tongue and face diagnose), basic practice (diet therapy, moxibustion, scraping, cupping, TCM aromatherapy) and qigong(Baduanjin). This course will provide you with an in-depth exploration of traditional Chinese medicine culture and learn how to use TCM knowledge in your daily life. You will learn about the correspondence between food and internal organs and how to apply this knowledge to improve your diet. Furthermore, you will delve into the concepts of Chinese medicine meridians and acupuncture points, master the art of brewing traditional Chinese herb teas and creating scented bags, and experience the renowned Chinese medicine fitness practice of the Baduanjin .
