Course Description
With the German reunion in 1990, the German Democratic Republic (GDR) ultimately disappeared from the map of Germany. In its wake it left behind political, social, and cultural ideas that had deeply affected a quarter of the German people during the era of separation. This seminar discusses how these ideas evolved and how they created a variety of different debates within the reunited country. Students examine this critical period of change through literature and films that were inspired by the GDR.
