Course Description

This course is mainly based on the organizational behavior perspective in a global context. It focuses helping one build their own global mindset; enhance their understanding of issues in global management, and develop their own global skills. Topics to be covered in the course include individual-level inputs, outputs and processes (IOPs) such as demographic diversity, personality and values, attitudes and behaviors, emotions and moods, perception and Individual decision making, and motivations, as well as group-level and organizational level IOPs in the global context. The focus will be on leading and managing people in a global setting, and issues such as strategy, trade, finance, etc. will not be covered.
