# **COURSE DETAIL**

# **INTRODUCTION TO MACHINE LEARNING**

# **Country**

United Kingdom - England

#### **Host Institution**

Imperial College London

# Program(s)

Imperial College London

### **UCEAP Course Level**

**Upper Division** 

# **UCEAP Subject Area(s)**

**Computer Science** 

### **UCEAP Course Number**

126

### **UCEAP Course Suffix**

Ν

#### **UCEAP Official Title**

INTRODUCTION TO MACHINE LEARNING

# **UCEAP Transcript Title**

INTRO MACHINE LEARN

### **UCEAP Quarter Units**

5.00

### **UCEAP Semester Units**

### **Course Description**

This course introduces students to the core ideas and fundamental concepts behind machine learning. Students learn different machine learning problems and the algorithms that exist to address them. They formulate machine learning problems and machine learning pipelines, apply suitable algorithms to tackle different machine learning tasks, implement machine learning algorithms to solve supervised learning problems, and assess appropriate methodologies to evaluate machine learning algorithms.

### Language(s) of Instruction

English

**Host Institution Course Number** 

COMP60012

**Host Institution Course Title** 

INTRODUCTION TO MACHINE LEARNING

**Host Institution Campus** 

**Host Institution Faculty** 

**Host Institution Degree** 

**Host Institution Department** 

Computing
