Course Description

This course investigates various economic issues of South and North Korean economics without serious economic theory. The course covers the economic development differences between North and South Korean economies; the history of both economies after WWII,; trade between North and South Korean economy; each country's export and import; each economy's labor market, and each economy's current situation. For a better understanding of Korean economic issues, the course employs economic concepts like GDP, inflation, unemployment, interest rate, and etc.
