Course Description

This course develops one's understandig of economic phenomena through analyzing evolutions of Japanese economy over the past decades and their interactions with economic policies, including monetary, fiscal, financial regulation policies, trade and industrial policy. The discussion encompasses the high-speed growth period of the '60s; the hyper-inflation age of the '70s; the financial bubble of the '80s; the financial crises of the '90s and 2000s, as well as the successive deflationary decades extended through the launch of the new policies - Abenomics and beyond.
