6.00

UCEAP Semester Units
4.00

Course Description

This course explores diverse aspects of death and dying. It encompasses history, the arts, the impact of technology, anthropological perspectives, social policy, and key theories. Underpinning the course is the permission to discuss a subject normally viewed as "depressing" or even "contagious" in an open – and even fun – way. This challenges taboos and creates space to explore a wide range of aspects, from the mundane to the bizarre.
