UCEAP Semester Units

8.00

Course Description

This course introduces students to a variety of strategies for approaching a selected play text through performance. The course includes a study of the theatrical and non-theatrical documents relating to the play, the playwright, and the cultural context in which the play was produced. Where appropriate, students may study other representations of the play and the playwright in theatre, cinema, radio, and television, for example. Towards the end students develop a performance project based on the play.
