6.00

UCEAP Semester Units

4.00

Course Description

In this course, students examine the origins of the idea of human rights, how it became institutionalized in law and international politics, and how its history and prospects have become so fiercely contested today. Students reflect on the history of abolitionism, human rights, and humanitarianism in a global setting, and analyze the impact of modern international and multi-cultural perspectives on the evolution of human rights history.
