Course Description

This course introduces and discusses historical developments and theoretical reflections of interactive media and looks at important authors, texts, and arguments. It explores various perspectives to analyze interactive media and uses these perspectives to illuminate selected cases. Topics include technological determinism; a Marxist base for digital superstructure; digital economy; history of the internet revisited; cyborgs and cybercommunities; cyberpower; digital texts, digital minds; artificial worlds, cyber bodies, and digital self; and alternatives to the West.
