UCEAP Semester Units

3.30

Course Description

This course offers an introduction to animal law. It discusses the historical and philosophical change from viewing animals as mere property to that of property and subject of protection simultaneously and how that has evolved and is regulated in domestic and international legal systems. This course also examines existing anti-cruelty legislation, responsible pet ownership, animals as family members, animal experimentation, animal breeding and slaughter for consumption, wildlife protection, and hunting and fishing regulation.
