Course Description

This course examines the processes of political and social changes and their impact on economic institutions and processes. Topics include: how to make collective decisions for a group of individuals with heterogeneous needs and preferences; typical failures of different voting rule; designing a voting rule that makes rational decisions and satisfies some minimal democratic requirement; how governments and electoral competition work; why economic competition and electoral competition are so different in nature; the role and influence of interest groups in the political process.

Language(s) of Instruction
English
