UCEAP Semester Units 4.00

Course Description

This course examines the pressures of technological change on contemporary media institutions and communications practices. Students will be introduced to key debates about media convergence, the relationship between technological change and media practices, and the shift from mass communication to networked communication. A range of case studies drawn from different media sectors including photography, the music industry, television, cinema, and the Internet will be complemented by examination of emerging practices such as video games, digital art and surveillance.
