UCEAP Course Suffix
UCEAP Official Title SCIENCE INTERDISCIPLINARY PROJECT
UCEAP Transcript Title SCI INTERDIS PROJCT
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This interdisciplinary course provides students with the opportunity to address complex problems identified by industry, community, and government organizations, and gain valuable experience in working across disciplinary boundaries. In collaboration with a major industry partner and an academic lead, students integrate their academic skills and knowledge by working in teams with students from a range of disciplinary backgrounds. This experience allows students to research, analyze and present solutions to a real-world problem, and to build on their interpersonal and transferable skills by engaging with and learning from industry experts and presenting their ideas and solutions to the industry partner.
